

# ONTARIO WILDLIFE COMPENSATION PROGRAM

The Ontario Wildlife Damage Compensation (OWDC) program provides financial compensation to producers whose livestock, poultry or honey bees are damaged or killed by wildlife.

In fall 2016, the Ontario Ministry of Agriculture, Food & Rural Affairs (OMAFRA) undertook a review of the OWDC program, this factsheet highlights who does what within the program and key eligibility requirements producers need to know.

## **Who Does What?**

**The municipal or territorial investigator is responsible for:**

- Carrying out a full and impartial investigation within 72 hours of receiving the notification of the injury or death of livestock or poultry.
- Taking three to six colour photos per eligible kill/injury incurred and collecting all necessary information to accurately complete the application.
- Municipal investigators are responsible for providing a completed program application to the owner and municipality within seven business days of completing an investigation.
- The Municipal Investigator has no role in setting a value on the dead/injured livestock.

The bee investigator is responsible for:

- Carrying out a full and impartial investigation with three business days of receiving notification of

the damage to a beehive, bee colonies and/or beehive-related equipment.

- Providing a completed program application to the owner and OMAFRA's program administrator within seven business days of completing an investigation.

**Municipalities are responsible for:**

- Appointing municipal investigators.
- Reviewing and submitting completed applications and any additional evidence to OMAFRA's program administrator.
- Paying an owner's approved application, in accordance with the program guidelines and values assigned by the program administrator.
- Providing Statement of Farm Support Payments (AGR -1) to owners who receive compensation.
- Paying and reimbursing municipal investigators.

**OMAFRA is responsible for:**

- Appointing investigators for territories without a municipal organization.
- Posting the standardized pricing table containing the fair market values for all eligible livestock and poultry, and updating the table on a regular basis.

# WILDLIFE COMPENSATION PROGRAM

- Reviewing applications to determine eligibility and assigning values based on the evidence provided.
- Providing the owner with a written decision within 30 business days of receiving a complete application. Reviewing and assessing appeals.
- Reimbursing municipalities (plus a \$30 admin fee per application) in accordance with the program guidelines. Municipalities will be notified of their assigned compensation value by OMAFRA within 20 business days after a decision letter is issued to the owner.

### Producers are Responsible for:

- Demonstrating reasonable care of livestock, poultry, beehives, bee colonies and beehive-related equipment in relation to the prevention of predation
- Notifying their municipality within 48 hours of discovering the injury or death of livestock or poultry, or discovering damage to beehives, a bee colony and/or beehive-related equipment.
- Preserving the injury or kill site and carcass (or carcasses) until the municipal or territorial investigator has investigated
- Disposing of all dead livestock and poultry in a manner that is acceptable under the Ontario Regulation 106/09 of the Nutrient Management Act, 2002.

### Eligibility Requirements

#### Producer Eligibility Requirements:

- Have a valid premises ID (PID) number for the farm property where the damage or kill occurred
- Have a valid Farm Business Registration (FBR) Number.
- Demonstrate Reasonable care of livestock, poultry and bees
- Ensure availability of evidence that damage/death caused by predation

### Eligible Damages

- Eligible livestock/poultry killed by an eligible predator
- Vet costs for eligible livestock/poultry injured by an eligible predator
