

Steve Funk

CPA, CA

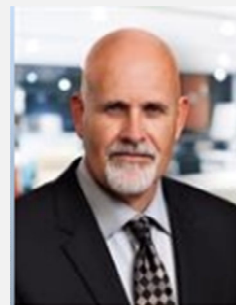

Director, Ag Risk Management Resources

Profile

Steve Funk, CPA, CA, is MNP's Director, Ag Risk Management Resources (ARMR). Steve is dedicated to helping both team members and agricultural producers understand AgriStability and other business risk management programs, how they impact financial statements and financial viability, and how coverages and payments from the various programs can be optimized within the context of an overall farm insurance risk management strategy.

Based in Lethbridge, AB, Steve has spent more than 26 years working with agricultural producers from a wide spectrum of sectors and geography across Canada. As chair of MNP's ARMR Service Leader committee, he oversees the provision of AgriStability, AgrilInvest, Ag Risk Management Projector™ (ARMP) and other related ARMR services for the entire firm including design, development, implementation, training and monitoring relating to various systems and processes utilized by the firm in delivering these services .

Steve has collaborated with various producer groups, government Administrators and policy makers on issues relating to AgriStability/ AgrilInvest Program design and assessing practice and is an accomplished public speaker in that regard. He has done extensive research and written technical reports on AgriStability and AgrilInvest and has provided consulting and Appeals support on complex Program scenarios for producers from across Canada.
