

OFA Candidate for Provincial Director
for zone 14 (Stormont, Glengarry, Prescott and Russell)

Vanessa Renaud

Born and raised on a cash crop farm in Green Valley, Glengarry County. I have always been involved in agriculture and discovered my passion early on.

I graduated University of Guelph Alfred Campus College in Farm Management and Technology before heading to Laval University to earn my Certification in Agronomy and my Certified Crop Advisor of Ontario (CCA).

For the last four years, I've worked as a crop consultant with farmers across the four counties in the zone, meanwhile maintaining a strong connection to my father's farm.

It's important to have a strong federation that represents the interests of our farm members to those who are disconnected from the Agricultural industry.

One of my personal and professional goals is for Agriculture to thrive in the community and to keep growing in Ontario.

My daily exposure in the Ag world keeps me connected with the concerns and issues that the local members are facing every day.

I am an easily approachable person, with open ears, an open mind and have the **strength**, and **confidence** to carry the voice of you, our local members.
