

# RE-ELECT BRUCE BUTTAR

for Director Ontario Federation of Agriculture for  
Zone 12

---

My wife Cindy, son Leighton and I live near Gores Landing in Northumberland County cropping 300 acres. We grow grains and oilseeds and raise a small herd of beef. I graduated from Kemptville Agricultural College with a diploma in Agriculture.

I have been a director on several local organizations including

- President of the Port Hope Agricultural Society
  - President Northumberland Soil and Crop improvement Association,
  - Chairman Northumberland County Milk Committee
  - County Holstein Committee Director
  - Director and Chairman Hamilton Township Mutual Insurance Company
  - Chairman Northumberland County Federation of Agriculture
  - Agricultural sector Director on the Ganaraska Region Conservation Authority.
-

- 
- Municipal Councilor Township of Hamilton
  - Member Northumberland County Agriculture advisory committee.
  - I am a member of Plainville United Church, trustee, and Chair of the Plainville United Church Cemetery.

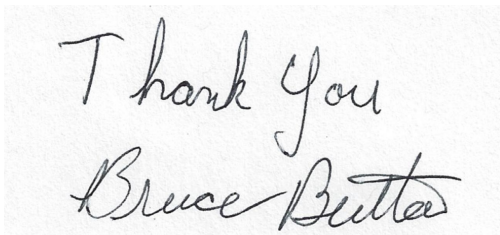

I enjoy golfing, riding motorcycles and camping with my family in the summer months. Downhill skiing in the winter and spending time with my grandchildren. and four step- children

I represented Northumberland County on the old OFA board until the downsizing of that board, and have represented Zone 12 on the newly structured board from 2012 until present.

I sit on the Pension Governance committee, Audit committee and I am very pleased to be chairman of the Farmer Wellness Initiative advisory Committee. My commodity liaisons are Grape Growers of Ontario and Ontario Harness Horse Association.

As the largest general farm organization in Ontario, OFA has a well-respected voice lobbying all levels of government on behalf of our members. As in the past, if elected I will continue to work with OFA to the best of my ability to address the concerns of the members of Zone 12 locally, Provincially and Federally.

I ask for your support to reelect me for Director Ontario Federation of Agriculture Zone 12.

Thank you  
Bruce Butter
