

# Angela Field

Hello fellow PAC members,

I am Angela Field a dairy, cash crop and custom farmer born and raised just outside of Sudbury and now settled in Renfrew County. I am asking for the opportunity to work for all of you on the PAC steering committee for the next year. I bring diverse experience to the table, being a mother, a farmer, a past president of the Renfrew Federation of Agriculture, a past MSR with OFA and a current deputy mayor, I see many different perspectives locally and provincially and I am able to objectively look at more than just one side of a situation.

I have the ability to work with all kinds of personalities throughout various situations and thoroughly enjoy improving upon structures or traditions that have been built before me. My outside the box thinking style lends itself to flexibility and excellent problem-solving skills.

If the PAC members are looking for a productive and inclusive voice that will work hard to make the PAC an equitable and inclusive voice for the entire province, then I would like to offer my name as one of those voices.

Please feel free to reach out to me with any questions or ideas you may have. Elected or not, I will continue to work with all PAC and board members to forge a united voice for agriculture in the province.

Angela Field
