

Focused on Farmers, Food & Farmland

Ontario agriculture needs clear, practical leadership on the OFA Policy Advisory Council (PAC) Steering Committee. Farmers have powerful voices. We need a team that listens and creates outcomes that protect our land, supports our businesses, and strengthens our agricultural system.

I'm Katie, a dairy goat farmer, cheesemaker, business owner, and advocate for resilient farm communities. At River's Edge Goat Dairy and The Centre for Agricultural Connection, I work every day to connect people with food, support local farmers, to ensure farmland stays in farmers' hands.
