

The Sustainable Canadian Agricultural Partnership (Sustainable CAP) brings together federal, provincial and territorial governments with a \$3.5-billion, 5-year agreement to strengthen and grow Canada's agricultural sector.

The Sustainable Canadian Agricultural Partnership is a

\$3.5 billion

**INVESTMENT** including:

\$1 billion

in federal programs and activities

\$2.5 billion

in cost-shared programs and activities funded by federal, provincial and territorial governments The Sustainable CAP builds off the success of previous partnerships, and includes an additional **\$500 million** in funding to support programs cost-shared between the federal and provincial/territorial governments.

#### federal funding

60%

provincial/ territorial funding

40%

The Sustainable CAP marks an ambitious path forward to advance 5 important priorities that will increase the competitiveness, innovation and resilience of our agricultural sector:

- Building sector capacity, growth and competitiveness
- Climate change and environment
- Science, research and innovation
- Market development and trade
- ▶ Resiliency and public trust

The Sustainable CAP runs from April 1, 2023 to March 31, 2028.

#### **FEDERAL PROGRAMS**

Growing trade and expanding markets

Innovative and sustainable growth of the sector

Supporting diversity and a dynamic, evolving sector

#### **AgriMarketing**

Helps industry expand exports and seize new market opportunities

### **AgriCompetitiveness**

Helps industry share information with producers to build capacity and support the sector

### **Agrilnnovate**

Supports commercialization, demonstration and adoption of innovative technologies and processes

### **AgriScience**

Accelerates the pace of innovation by providing funding and support for precommercial science activities and research that benefits the agriculture and agrifood sector and Canadians

### **AgriDiversity**

Helps underrepresented groups participate in the sector

#### **AgriAssurance**

Helps foster public trust about the safety of Canadian agri-food products, and how they are produced

## **BUSINESS RISK MANAGEMENT PROGRAMS (BRM)**

BRM programs provide agricultural producers with protection against income and production losses, helping to manage risks that threaten the viability of their farms

## **AgriStability**

Provides support when producers experience a large margin decline

# **Agrilnvest**

Provides cash flow to help producers manage income declines

### Agrilnsurance

Offers cost-shared insurance against natural hazards to reduce the financial impact of production or asset losses

### **AgriRecovery**

A disaster relief framework to help producers recover from natural disaster events
